

NOTICE OF PUBLIC INFORMATION MEETING

Tavistock wastewater treatment plant

Find out what the County's next steps will be

Oxford County has been planning the upgrade and expansion of Tavistock's wastewater treatment plant following the Class Environmental Assessment process.

A Hearing of Necessity Inquiry was held under the Expropriations Act on June 25, 2009 at the request of the owners of the land in question. The Inquiry Officer's report recommended that the County review the decision to expand and upgrade the existing lagoon system and further consider the option of constructing a mechanical plant.

County Council on August 12, 2009 directed Public Works Department Staff to undertake the recommended review.

*This Notice issued August 21, 2009 by
Robert Walton, P.Eng., Director of Public Works,
Oxford County*

The County is hosting a Public Information Meeting in Tavistock to present the work plan that will be undertaken and update the community on the timing of the review and the process that will be followed. The Public Information Meeting will be held on:

**Wednesday, September 2, 2009
7:00 PM – 9:00 PM
Tavistock Memorial Hall
3 Adam St., Tavistock**

A presentation will be made at 7:30 PM, followed by a Question and Answer period.

There will be a second Public Information Meeting at the same location and time on Wednesday, September 30, 2009 to present the findings of the review. Another notification regarding this meeting will be issued in advance.
